## What is Screencastify?

# ***Introduction***

Screencastify is an extension that is used to help you make, record, edit and share videos of your computer screen. Lots of teachers and students use Screencastify to create amazing videos. Some things it is used for are recording lessons, training videos, or to teach how to do different things on your computer. Screencastify also improves accessibility by allowing viewers to pause, rewatch and use AI-powered translation. Screencastify is for free, it's for anyone who wants to create a video in seconds starting with the essential tools. It is an amazing technology resource.

# Pros and Cons of Screencastify

## Pros:

- Screencastify is easy to navigate in networking.
- Screencastify helps teachers to record video lessons, create video feedback, and personalize learning experiences.
- It also helps students to make screen recording easy to implement.
- For teachers and students the available tools are to do recording, editing, and assigning.
- A lot of teachers and students use Screencastify to create amazing videos for school work.

## Cons:

- Screencastify is Limited editing capabilities.
- It's not very suitable with mobile devices, including iPads or other tablets. It causes the screen to freeze and it lags.
- Some teachers did report having trouble with videos lagging or struggling if they had older model computers.
- Video editing tools have never been very quick and easy to use.
- The free version only allows you to record for 5 minutes and you are not able to edit.

# *How Teachers and Students can use Screencastify*

*Screencastify can be a very useful tool for teachers and students. Ways that screencastify benefits teachers and students are...*

- Teaching: Screencastify can help teachers with their classes by allowing them to record their lessons. This can help children learn at their own pace and prevent teachers from answering the same question a million times. Also, it helps students when they have questions about their homework.
- Attention: Screencastify can help make lessons more interesting for children by presenting the material in video form. It can also make student projects more interesting.
- Grading: Screencastify can help teachers with grading since it allows them to record their feedback on a student's work rather than writing it.
- Language: For students who are trying to learn a new language, screencastify is a helpful tool since it allows them to hear themselves speaking and identify where they need to work on their pronunciation.

# *Why Screencastify is a good Tool for club leaders:*

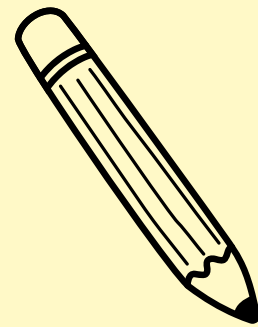

*Screencastify is a very beneficial tool for club leaders as it has a number of uses.  
Some ways that it can be useful for club leaders is...*

- Leaders can use screencastify to record presentations and club meetings so that anybody who missed a meeting can easily watch and catch up.
- Screencastify is really good for creating tutorial videos as it allows you to record your screen and voice therefore it would be useful for clubs that are trying to teach you a new skill. Screencastify can help make it easier for people to understand since they're seeing the screen.
- For people in the club that struggle with reading and writing, screencastify can help them by allowing them to record their comments and feedback on whatever it is they're doing.
- Screencastify can help club leaders record announcements in a more attention catching way to make sure that nobody in the club misses anything.

# *How We Would Use Screencastify in a Catholic Club Leadership Role*

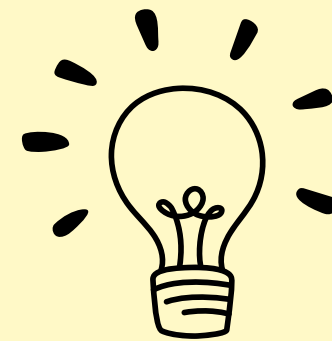

Chenuli

Screencastify would be very useful in a catholic club leadership role as it would be able to serve itself as an easy simple resource to create media.

Ramindi

Screencastify would be useful in a leadership club for a mode of presenting and interacting with their members in a controlled way.

Vannessa

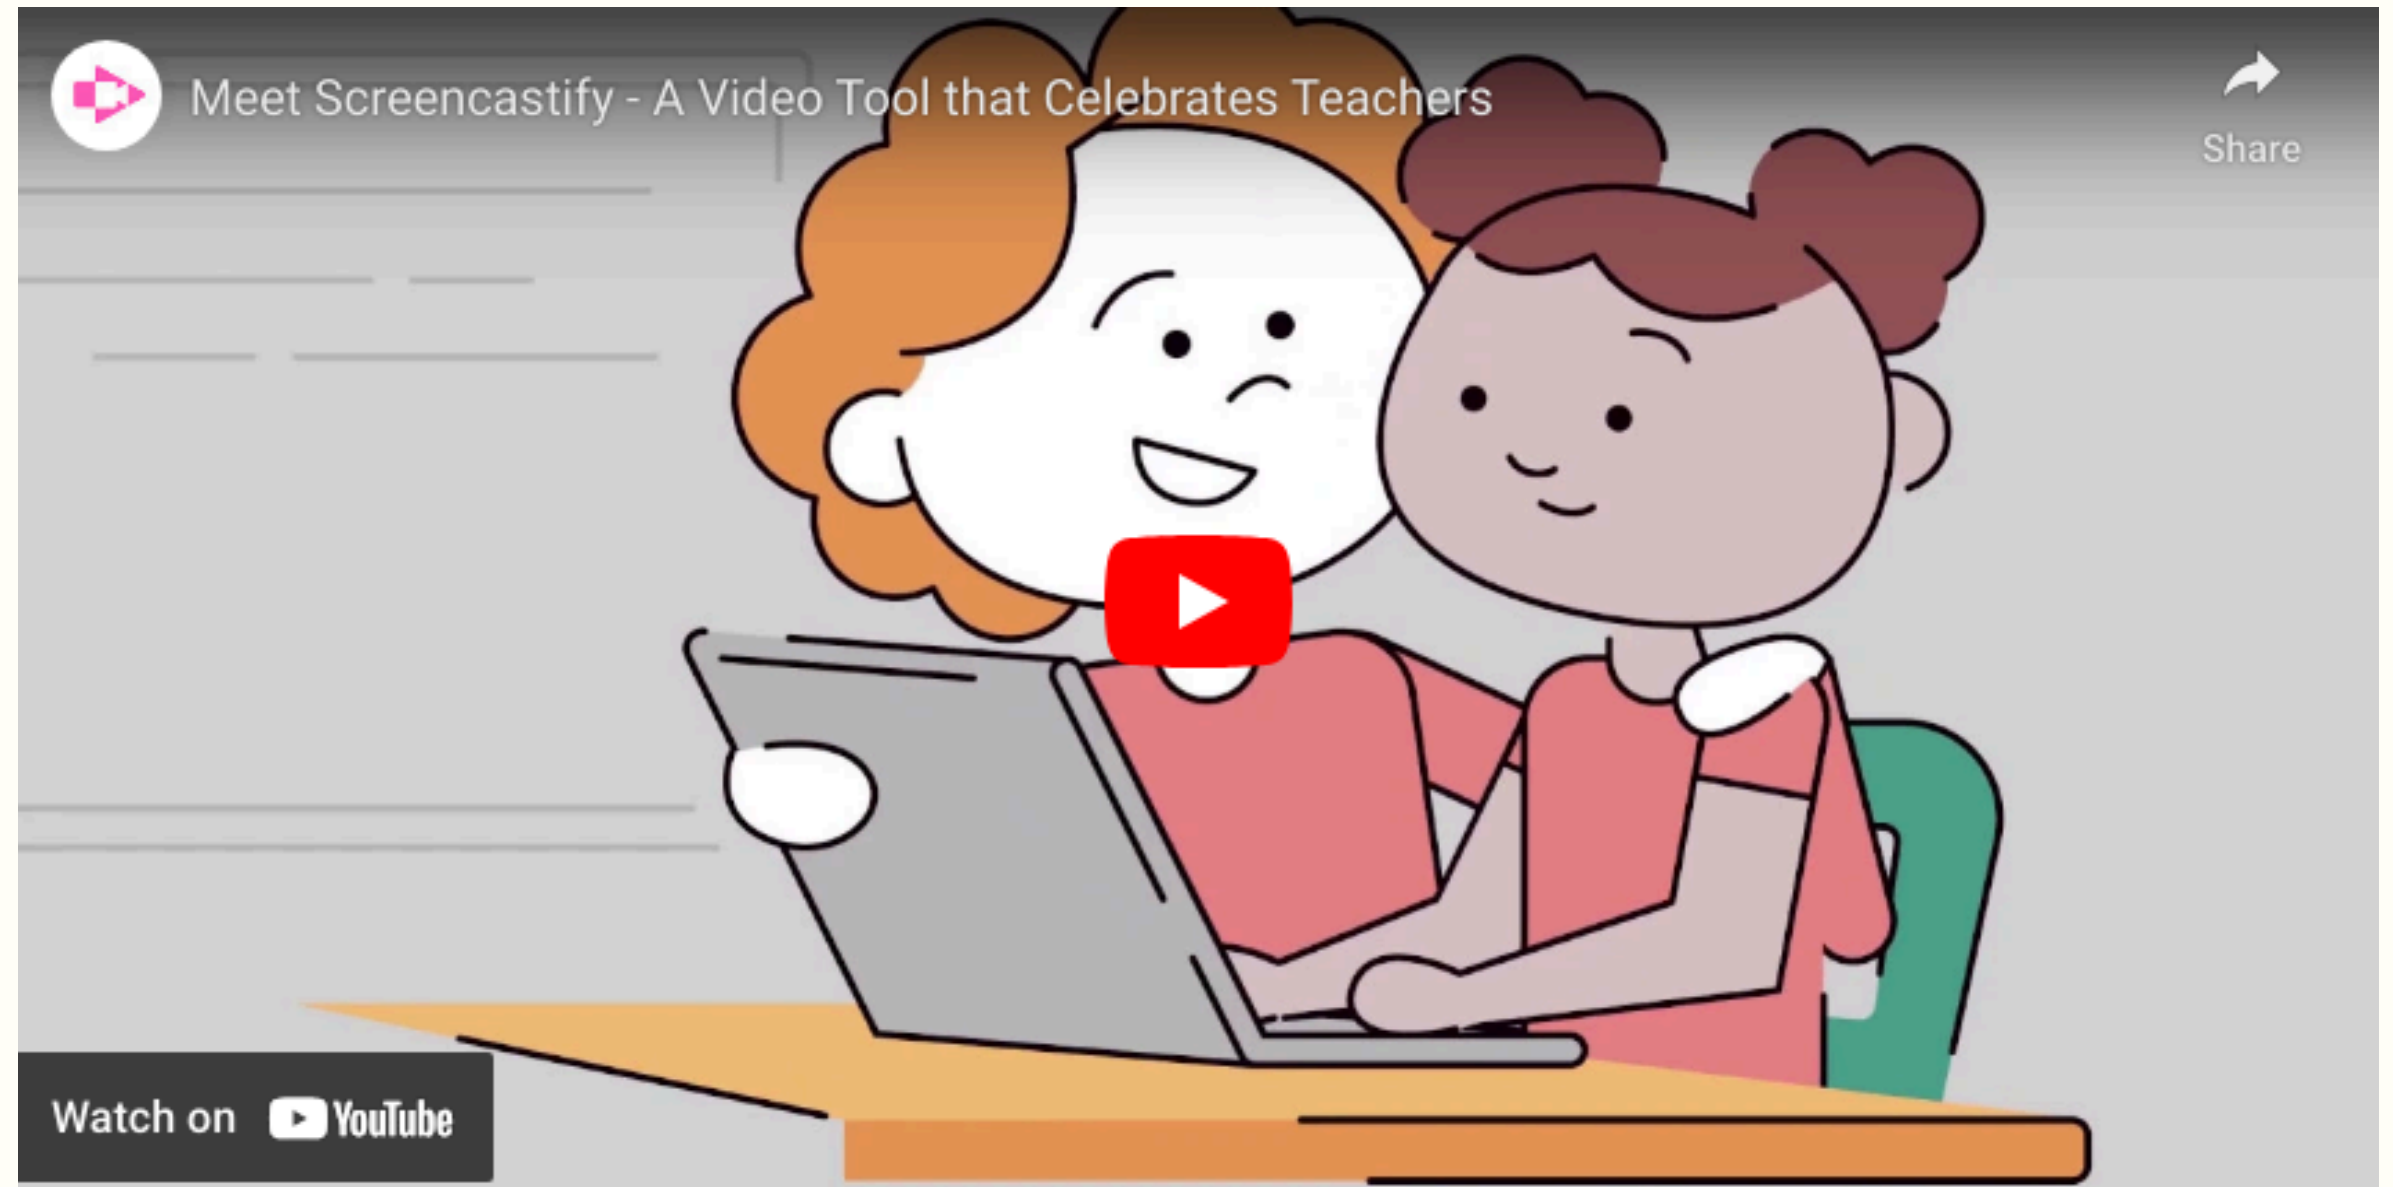

Screencastify would be very useful in a leadeship club for things like announcements, Screencastify can be used to create video announcements and updates for club members

Adriana

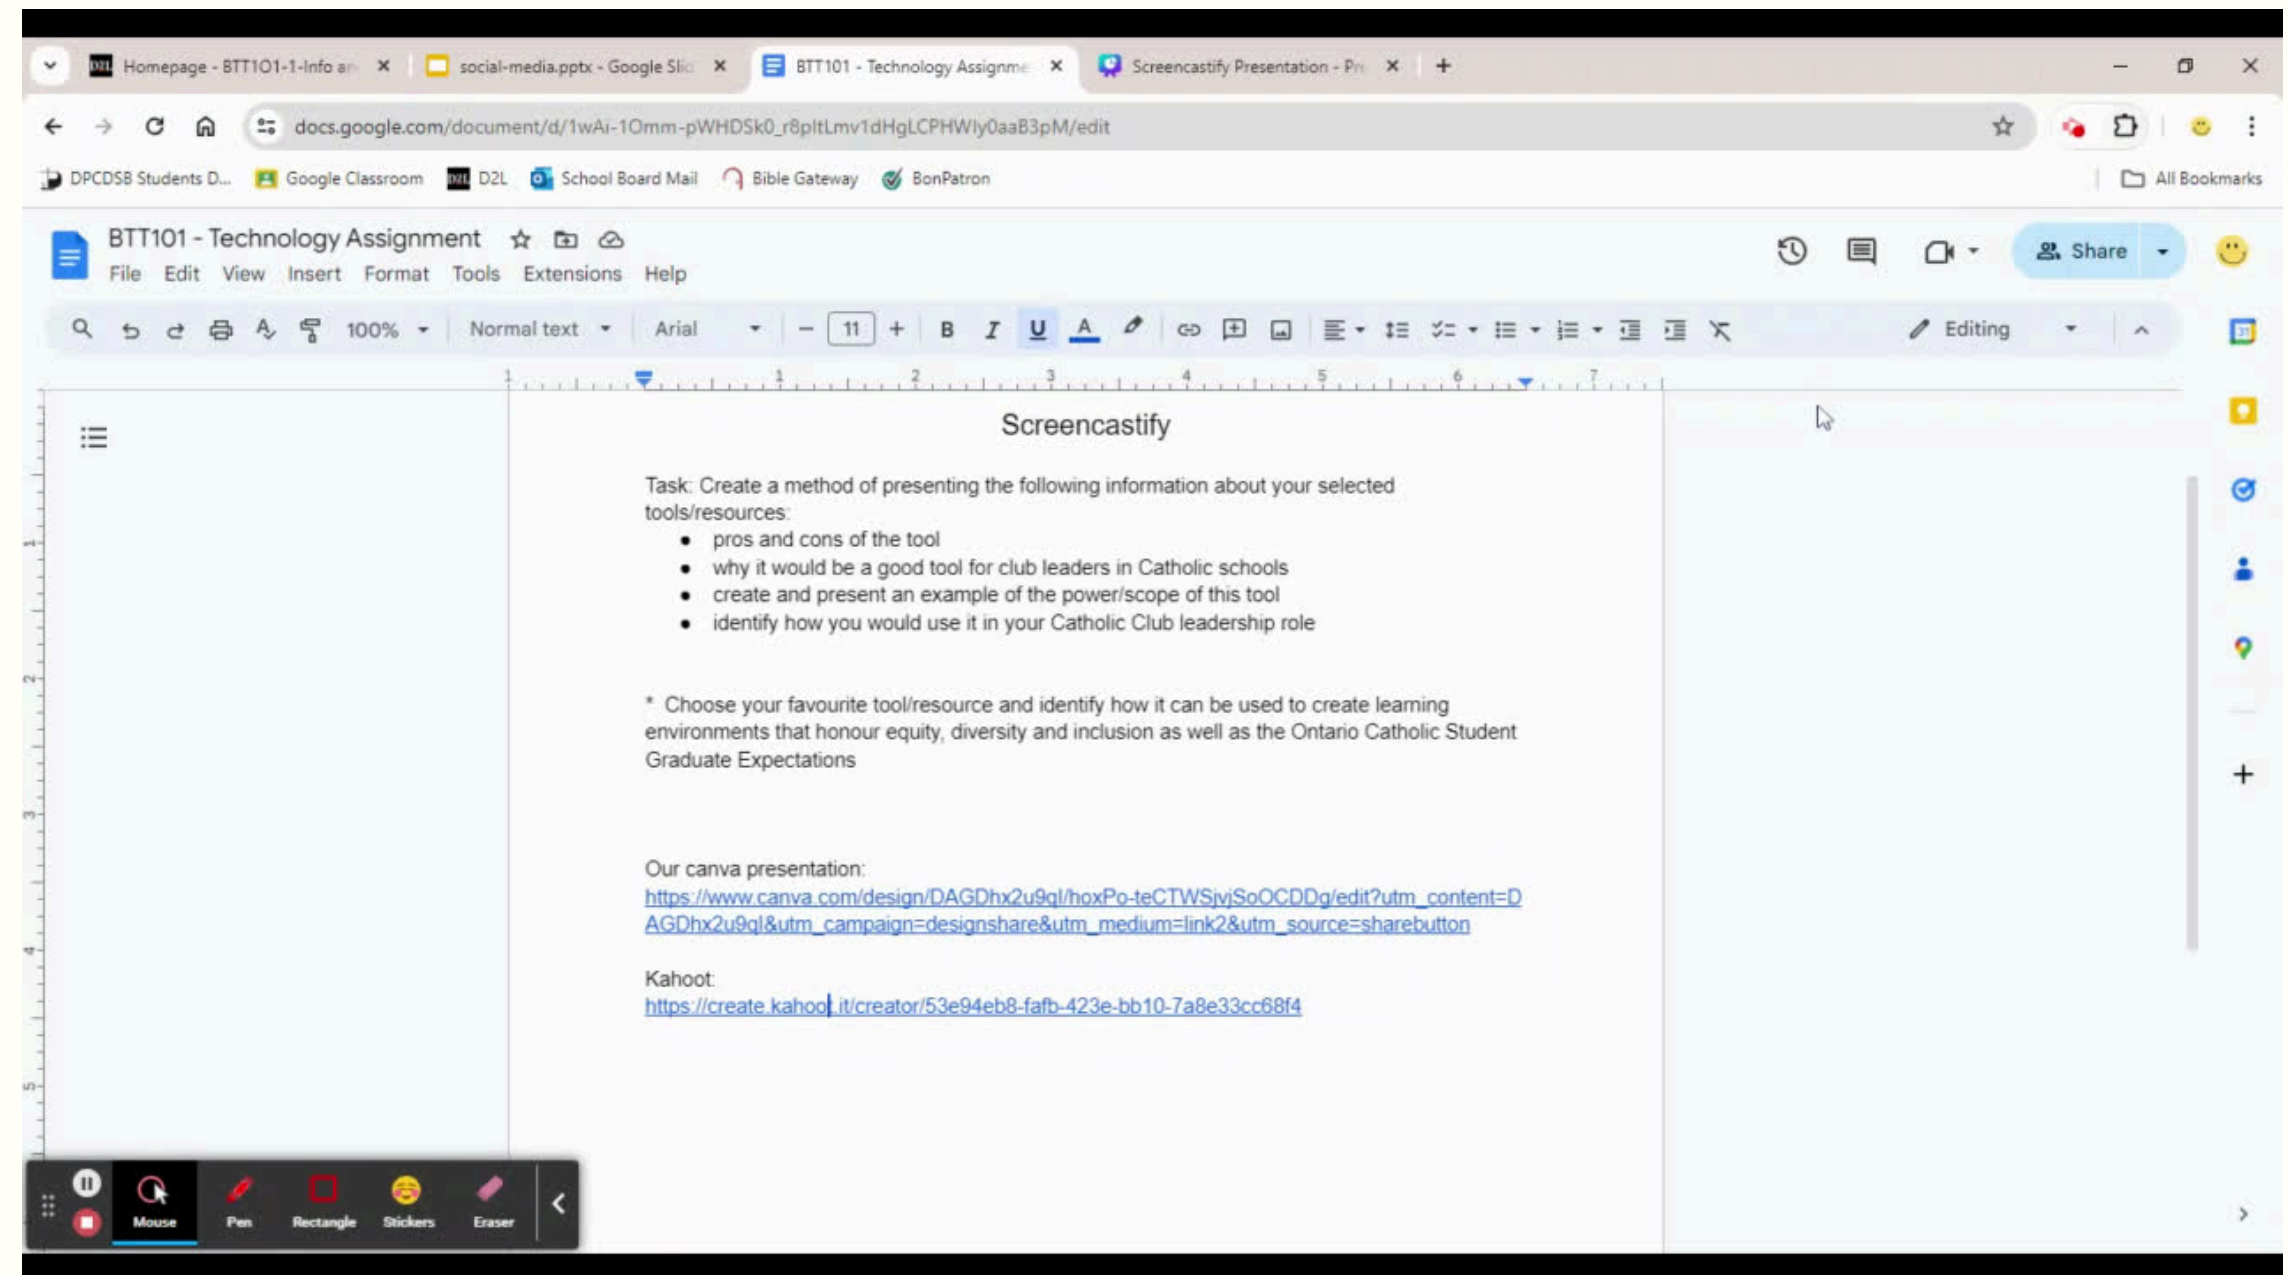

Screencastify would be very useful in a club leadership role because it allows leaders to easily record their screens and presentations for people who missed the club meeting so they can stay connected.
